

James E. Pfander has focused his teaching and research on federal jurisdiction and procedure. Much recent work deals with the history and structure of Article III of the Constitution and the role of the Supreme Court of the United States in relation to inferior courts and tribunals. In 2009, Oxford University Press published his book on that subject, *One Supreme Court: Supremacy, Inferiority, and the Judicial Power of the United States*. Other books include *Principles of Federal Jurisdiction* (2d ed. 2011) and *Civil Procedure: A Modern Approach* (5th ed. 2009). A member of the American Law Institute, Pfander currently serves as reporter/consultant to the Federal-State Jurisdiction Committee of the Judicial Conference of the United States. He has served as chair of both the federal courts and civil procedure sections of the Association of American Law Schools.

Representative Publications
