Connecting to the Northwestern Wireless Network

For Macintosh OS X 10.5.x through 10.7.x

Click on the Airport Icon (top-right corner of screen), make sure your Airport is on, and select Join Other Network.

Fill out the fields as shown to the left, using your netID for User Name, and your netID password for Password.

Once entered, click Join.

If the screen to the right comes up after clicking Join in the previous step, click Continue.

You should now be connected to Northwestern Wireless.
